

⚡ POWERED BY GEMINI 2.5 FLASH VISION AI

Transform Messy Corporate Bills Into **GST-Ready Excel Reports** Instantly.

The autonomous receipt parser & expense recovery engine built specifically for Indian corporations, consultants, executives, and finance teams.

99.4%

OCR OPTICAL
ACCURACY

1.8s

AVG. LATENCY PER BILL

100%

GSTIN COMPLIANCE

₹0.04

UNIT COST PER SCAN

Universal Receipt Ingestion

Capture paper receipts with your phone camera, upload high-res food & travel bills, or drop multi-page hotel and taxi PDF invoices seamlessly.

Complete Indian GST Tax Breakdown

Automatically extracts and isolates 15-digit GSTINs, Taxable Subtotal, CGST, SGST, IGST, and Round-Off adjustments according to GST 2.0 norms.

Audit-Ready Excel (.xlsx) Generation

Generates standardized reimbursement spreadsheets formatted with dynamic formula sums, chronological serial numbers, and vendor category tags.

Native Android & Cross-Device Sync

Snap receipts on the go with the Android Capacitor app with offline queueing; watch them sync in real-time on your laptop dashboard.

Autonomous 4-Stage Extraction Pipeline

From unstructured crumpled receipt photos to structured financial data in milliseconds.

STAGE 01

Ingestion & Hash

Client-side SHA-256 deduplication, MIME validation, and pre-flight credit lock in Supabase storage.

STAGE 02

Vision AI OCR

Gemini 2.5 Flash dual-pass spatial analysis extracts merchant name, date, invoice number, and currency.

STAGE 03

GST Normalization

Verifies 15-char GSTIN state code regex and calculates exact CGST (9%), SGST (9%), or IGST (18%) math.

STAGE 04

Excel Export

Compiles standardized 12-column corporate expense sheets with active Excel formula calculations.

Built-In Smart Parsers for Top Indian Merchants

Pre-trained rules and layout heuristics for all major corporate service providers.

Cab Commute & Travel

Uber, Ola, BluSmart, Indigo, Air India: Extracts trip route, booking ID, toll charges, CGST/SGST splits, and driver invoice number.

Meals & Client Dining

Swiggy, Zomato, Starbucks, CCD, Chai Point: Parses restaurant FSSAI/GSTIN, packaging fees, delivery tips, and 5% food GST.

Hotel & Lodging Stays

Taj, Marriott, Lemon Tree, MakeMyTrip, OYO: Multi-night room tariffs, SAC codes, laundry, room service, and 12%/18% luxury slab breakdown.

Office SaaS & Electronics

Amazon India, Croma, Google Workspace, AWS, Adobe: Hardware HSN numbers, cloud software reverse charge invoices, and tax credits.

STANDARDIZED EXCEL OUTPUT DATA COLUMNS

1. Serial Number

2. Transaction Date

3. Merchant / Vendor

4. Expense Category

5. Taxable Subtotal (₹)

6. CGST Amount (₹)

7. SGST Amount (₹)

8. IGST Amount (₹)

9. GST Total (₹)

10. Total Claim (₹)

11. 15-Digit GSTIN

12. Audit Status

Industry Benchmark: Manual vs Legacy OCR vs BillFetch

Why corporate teams save 90% time and eliminate manual data entry errors.

CAPABILITY / METRIC	MANUAL EXCEL ENTRY	LEGACY OCR (TESSERACT)	BILLFETCH VISION AI
Average Time per 50 Bills	2.5 Hours (150 mins)	25 Minutes	90 Seconds (1.5 mins)
GST Tax Split Accuracy	Human calculation errors	Fails on crumpled/dot-matrix	99.4% Dual-Pass AI Precision
15-Digit GSTIN Extraction	Tedious manual typing	Mistakes 'O' for '0', 'l' for '1'	Regex Validated + Checksum
Cost per 100 Invoices	₹2,500+ (Accountant hours)	₹800 (Enterprise SaaS)	₹50 - ₹150 (Razorpay UPI)
Formula Calculation in Excel	Manual `=SUM()` formulas	Raw unformatted CSV export	Standardized .xlsx with Formulas
Mobile Camera Capture Flow	None (Desktop only)	Heavy clunky scanners	Android Native App + Offline Queue

Transparent, Pay-As-You-Go Credit Plans

No recurring subscriptions, no hidden lock-ins. Pay directly via Razorpay UPI.

			BEST VALUE
Free Trial	1 Scan Attempt	3 Scan Attempts	5 Scan Attempts
₹0	₹50	₹180	₹200
3 Free Bills • Instant	Up to 50 bills / batch	₹60.00 / attempt	₹40.00 / attempt • SAVE ₹50
• 3 Free OCR test scans • Full GSTIN & Tax math • Test on your receipts • No card / UPI required	• 1 Full batch scan attempt • Instant Excel download • Auto formula calculations • UPI Instant activation	• 3 Batch scan attempts • Up to 150 bills parsed • Multi-trip quarterly claims • Priority Vision OCR worker	• 5 Batch scan attempts • Up to 250 bills parsed • Best value for frequent travel • 30-day vault history

Enterprise Security & Compliance Standards

Designed with multi-layer security to safeguard confidential company financial records.

End-to-End Encryption

All image buffers and extracted expense data are encrypted in transit with TLS 1.3 and at rest with AES-256 in Supabase PostgreSQL vault.

Strict Multi-Tenant Isolation

Row-Level Security (RLS) policies guarantee that employees and organizations can only access their authenticated receipts.

PCI-DSS Level 1 Banking Gateways

All payment transactions are processed through Razorpay India with instant HMAC SHA-256 signature verification.

Zero-Data Retention Policy

One-click account and receipt vault deletion permanently purges all uploaded images and extraction data from storage.

Deploy BillFetch in Your Organization Today

Start scanning instantly on Web or install the Android mobile application.
